**STATE ACTION**  
**Governor's Office of Planning and Budget**  
**116 State Capitol, SLC, UT 84114**  
**Phone: (801) 538-1535 Fax: (801) 538-1547**

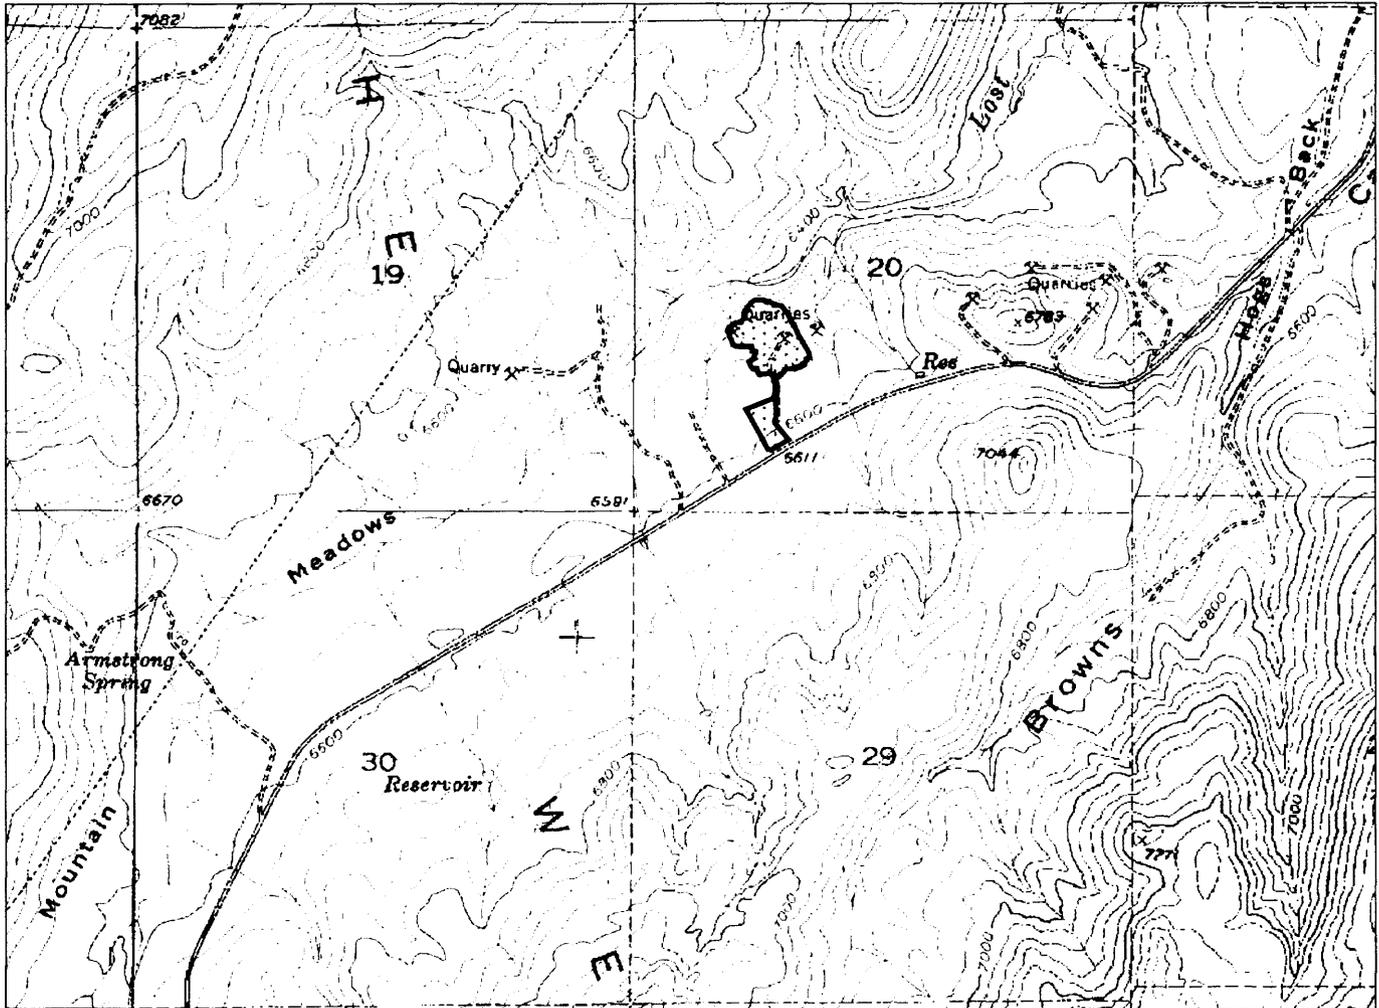

<b>1. Administering State Agency:</b>  Division of Oil, Gas and Mining 1594 West North Temple Suite 1210 PO Box 145801 Salt Lake City, Utah 84114-5801	<b>2. State Application Identifier Numbers:</b> (assigned by State Clearinghouse)
<b>4. Areawide clearinghouse(s) receiving State Action: (to be sent out by agency in block 1)</b>  Darrell Cook Mountainlands Association of Governments 586 East 800 North Orem, Utah 84097-4146	<b>3. Approximate date project will start:</b> Expanding an existing small mining operation (< 5 acres), to a large mining operation.
<b>5. Type of action:</b> <input type="checkbox"/> Lease <input checked="" type="checkbox"/> Permit <input type="checkbox"/> License <input type="checkbox"/> Land Acquisition <input type="checkbox"/> Land Sale <input type="checkbox"/> Land Exchange <input type="checkbox"/> Other	
<b>6. Title of proposed action:</b> Large Mining Operations - Mountain Valley Stone, Inc., Browns Canyon Mine	
<b>7. Description:</b> <b>During Operations:</b> Stone is dug from the quarry with a trackhoe. It is split by hand, cut to specific sizes with a guillotine, or tumbled, and then stacked on pallets for shipping. Waste rock material is added to the existing dumps. Occasionally, explosives will be used to loosen the rock. Explosives are kept in an explosives magazine. Topsoil will be salvaged and placed in stockpiles for final reclamation. Topsoil stockpiles will be seeded and signed to protect them from erosion and further impacts. Fuel for equipment will be stored onsite in an aboveground storage tank with secondary containment to control any potential spills.  <b>After Operations:</b> All facilities and structures will be removed and all disturbed areas will be reclaimed. Trash and debris will be hauled to the county landfill. Waste dumps will be graded to a 3h:1v slope. Highwalls will be worked to maintain a stable 45-degree slope. Overburden materials will be used to reduce highwall slopes. Topsoil will be replaced to a 6-inch depth. Composted manure will be applied to all regraded areas, at rates of 5-tons/acre on areas receiving topsoil, and 10 tons/acre on overburden materials that do not receive topsoil. All areas will be ripped to a minimum depth of 1 foot. Compacted surfaces such as roads will be ripped to a 2-foot depth. The entire site will be seeded with an approved seed mix, designed to meet the post mining land use of grazing and wildlife habitat.	
<b>8. Land affected (site location map required) (indicate county)</b> Portions of the SW1/4 of Section 20, T1S, R5E, SLBM, Summit County, Utah	
<b>9. Has the local government(s) been contacted?</b> Yes, by copy of the notice. Lesli Burns, Summit County Planner, 627 S. Main, PO Box 128, Coalville, UT 84017	
<b>10. Possible significant impacts likely to occur:</b> None	
<b>11. Name and phone number of district representative from your agency near project site, if applicable:</b> N/A	
<b>12. For further information, contact:</b>  Lynn Kunzler, Senior Reclamation Specialist	<b>13. Signature and title of authorized officer:</b>  D. Wayne Hedberg, Permit Supervisor
<b>Phone:</b> (801) 538-5310	<b>Date:</b> April 18, 2002
